EDUCATION

Amal Jyothi Engineering College, Kanjirappally

Integrated MCA (5-Year Program) – APJ Abdul Kalam Technological University

Kanjirappally, Kerala

Expected May 2027

EXPERIENCE

MERN Stack Intern

June 2026

Amigosia Private Limited

Remote

- Developed responsive full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, and Node.js).
- Designed RESTful APIs and integrated frontend components with backend services for scalable application development.
- Worked with Git-based version control and followed Agile software development practices throughout the project lifecycle.
- Applied modern web development best practices, debugging techniques, and database design principles while building production-ready applications.

Web Development Intern

June 2025 – July 2025

VaultofCodes.in

Remote

- Developed responsive web pages using HTML, CSS, JavaScript, and PHP across multiple client projects.
- Built *GearEquip*, a full-featured platform for renting and listing machinery online.
- Improved site performance and UI consistency across devices through targeted optimizations.
- Applied strong coding, debugging, and cross-functional teamwork skills in real-world project environments.

Open Source Contributor – uLearn Hacktoberfest

October 2024

WikiSyllabus Challenge, TechMyrmidons

Remote

- Contributed to syllabus-based repositories and open-source documentation during Hacktoberfest 2024.
- Used Git and GitHub for collaborative version control and pull request workflows.
- Enhanced content structure and accessibility within community-driven documentation projects.

PROJECTS

Nexus SMS – Institution Management System | *React.js, Vite, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, Cloudinary*

- Designed and developed a full-stack institution management system that digitizes academic, administrative, and financial workflows on a unified platform.
- Implemented secure JWT authentication with Role-Based Access Control (RBAC) for administrators, teachers, students, and parents.
- Built modules for admissions, attendance, academics, fee management, student records, learning resources, and institutional communication.
- Developed scalable REST APIs with MongoDB and integrated Cloudinary for secure file uploads and media management.

GearEquip – Machinery Rental Platform | *React.js, Node.js, Express.js, MongoDB, Cloudinary, Razorpay* | [GitHub](#)

- Built a full-stack machinery rental platform with advanced search, secure Razorpay payments, and Cloudinary-based media storage.
- Implemented role-based dashboards for administrators, providers, and customers with booking management and review functionality.

Interacta – Real-Time Gamified Networking Platform | *React.js, Firebase, Cloud Functions, HTML5 QRCode* | [GitHub](#)

- Developed a real-time networking platform featuring QR-based event participation and live game management.
- Designed a serverless backend using Firebase Firestore and Cloud Functions to synchronize multiple concurrent users.

Guardian Assist – IoT Smart Blind Stick | *Arduino, NodeMCU, Firebase, React.js, GPS, Ultrasonic Sensors* | [GitHub](#)

- Built an IoT-enabled smart blind stick for real-time obstacle detection with GPS tracking and emergency alert capabilities.
- Developed a React.js dashboard with Firebase integration for guardian monitoring and live location tracking.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, PHP, SQL, HTML5, CSS3
Frontend: React.js, Vite, Tailwind CSS
Backend: Node.js, Express.js, REST APIs
Databases: MongoDB, Firebase (Firestore, Realtime DB), MySQL
Authentication & Security: JWT Authentication, Role-Based Access Control (RBAC)
Cloud & DevOps: Cloudinary, Docker, Kubernetes, GitHub Actions, OpenShift, OCI
Tools: Git, GitHub, Postman, VS Code
Other: IoT (Arduino, NodeMCU), Agile/Scrum, CI/CD, TDD

CERTIFICATIONS

Google Cybersecurity Professional Certificate	Jan 2026
<i>Google & Coursera</i>	<i>Online</i>
- Completed a 9-course professional certification focused on cybersecurity fundamentals, Linux, SQL, Python, SIEM tools, IDS, network security, and threat analysis. - Developed practical skills in risk management, security operations, vulnerability assessment, and incident response workflows.	
Oracle Cloud Infrastructure 2025 Certified Developer Professional	2025
<i>Oracle</i>	<i>Online</i>
Validated expertise in designing, building, and deploying cloud-native applications on Oracle Cloud Infrastructure (OCI).
